

Early Stage 1 - Term 2 News Topics

Oral language and communication

Friday 24 April 2026

Dear parents and carers,

This term, Kindergarten students are learning about living things. As part of this science and technology unit, students will share their knowledge about various topics during their allocated news times. Please assist your child by discussing the various topics and providing them with visual prompts (picture cards, palm cards, photos or props). We will be covering the following News Topics during the term.

Week	News Topic
Week 2 27 April – 1 May	Free choice NB: Because of the public holiday on Monday 27 April, students whose news day is Monday will present later in the week.
Week 3 4 May – 8 May	Choose a plant and describe what it would need to survive.
Week 4 11 May – 15 May	Bring in a photograph or drawing of your family's or a friend's pet. Discuss how you would care for it.
Week 5 18 May – 22 May	Think about the pet you chose last week for news. If you had to create a shelter for it, what would the shelter need to have and why?
Week 6 25 May – 22 May	Choose an Australian native animal and explain its habitat and diet. Extension: discuss any adaptations the animal needs to survive in the current environment.
Week 7 1 June – 5 June	Pretend you are packing a suitcase to go on a holiday. Share with the class the items you would take (discuss needs and wants).
Week 8 8 June – 12 June	If you could create the best garden or zoo, what would be in it and how would you take care of the garden or zoo? NB: Because of the public holiday on Monday 8 June, students whose news day is Monday will present later in the week.
Week 9 15 June – 19 June	Research three interesting facts about a chosen living thing and share your findings.
Week 10 22 June – 26 July	Discuss three facts that you have learnt about butterflies this term. (e.g. the life cycle)
Week 11 29 June – 3 July	Free choice

Thank you for assisting your child to prepare their weekly news.

Kind regards,

Kathryn Pryke
