

Stage 1 Term 2 News Topics

Oral language and communication

Thursday 23 April 2026

Dear parents and carers,

This term, Stage 1 students will continue to learn the important skills of public speaking. Weekly news topics are listed below. These topics link with our science and technology unit, Living World. Students will present their news during their allocated news time (please refer to your class timetable posted on School Bytes parent portal).

We recommend students draw pictures or make notes on palm cards to help them present the news topic.

Week	News Topic
Week 2 27 April – 1 May	Free choice
Week 3 4 May – 8 May	Choose a living thing found in our local area (such as a bird, plant, or insect) and tell us how it survives in its habitat.
Week 4 11 May – 15 May	Free choice
Week 5 18 May – 22 May	Talk about a living thing that lives in an unusual place (for example, underwater, in a desert, or high in the mountains). What features/adaptations help it survive there?
Week 6 25 May – 29 May	Explain the life cycle of a living thing you find interesting (like a tree, fish, or insect). What stages does it go through as it grows?
Week 7 1 June – 5 June	Free choice
Week 8 8 June – 12 June	Suggest a simple action we could take to help living things in our community (like creating a bird feeder, planting flowers, or picking up litter).
Week 9 15 June – 19 June	Free choice
Week 10 22 June – 26 July	Describe how living things work together in their environment. For example, how do bees and flowers help each other? Or fish and coral?
Week 11 29 June – 3 July	Free choice

Thank you for assisting your child to prepare their weekly news.

Kind regards,

Madeline Frerer

Stage 1 Relieving Assistant Principal

Waverley Public School
